PROFESSIONAL EXPERIENCE

Quality Control Inspector – Westlake Pipe & Fittings

Sep 2024 – Sep 2025 | Vaughan, ON

- Conducted in-process and final inspections of pipes and fittings to ensure full compliance with company specifications and ISO 9001 standards.
- Recorded inspection results, defect logs, product traceability details, and non-conformance reports within QMS and ERP systems.
- Performed dimensional and visual checks using calipers, gauges, micrometers, and OD tape; verified tolerances using EPDM blueprints.
- Identified non-conforming products, supported root cause analysis and CAPA, and communicated quality concerns for timely product release.

Shipper – Westlake Pipe & Fittings

Jun 2023 – Sep 2024 | Vaughan, ON

- Processed shipping orders and ensured accurate, timely order fulfillment for pipe and fittings products.
- Coordinated with warehouse teams to pull, package, and stage orders; assisted with customer pick-ups and outbound dock staging.
- Constructed packaging, inspected outgoing goods, and repacked damaged products to maintain high quality and packaging standards.
- Strictly adhered to warehouse Occupational Health & Safety guidelines, conducted daily forklift pre-use inspections, and maintained a clean, hazard-free dock.
- Safely operated certified material handling equipment, including Counterbalance, reach truck, and order picker forklifts.
- Handled manual lifting up to 50 lbs (23 kg) and actively participated in the PVC Recovery program and facility recycling initiatives.

Inventory Control Associate – Deciem Inc.

May 2022 – Feb 2023 | Etobicoke, ON

- Conducted daily cycle counts with 100% accuracy, confirming product availability and maintaining reliable inventory records.
- Participated actively in scheduled monthly and year-end inventory count and reconciliation processes.
- Researched inventory variances and purchase order (PO) discrepancies, investigating root causes and completing system corrections.
- Developed and maintained detailed stock tracking sheets using MS Excel and performed systematic data entry into server/ERP systems.
